

URIC ACID GOING-GOING-GONE

"Anuric" Will Not Fail to Stop Your Backache.

People are realizing more and more every day that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Under this continual and perpetual action they are apt to congest, and then trouble starts. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances. Doctor Pierce of Buffalo, New York, advocates that every one should drink plenty of pure water between meals. Every day should exercise in the outdoor air sufficiently to sweat profusely, and from time to time stimulate the kidney action by means of "Anuric." This preparation has been thoroughly tried out at his Sanitarium, in the same way as his "Favorite Prescription" for weak women and "Gold

en Medical Discovery," the standard herbal system tonic (both of which now come in tablet form for convenience of carrying and taking). "Anuric" is now being introduced here, and many local people are daily testifying to its perfectness.

When you have backache, dizzy spells or rheumatism, heed nature's warning. It means that you are a victim to uric acid poisoning. Then ask your druggist for "Anuric" and you will very soon become one of hundreds who daily give their thankful endorsement to this powerful enemy to uric acid.

If you have that tired, worn-out feeling, backache, rheumatism, neuralgia, or if your sleep is disturbed by too frequent urination, get Dr. Pierce's Anuric Tablets at drug store, full treatment \$1.00, or send 10c for trial package to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.—Adv.

UTILITIES BILLS MAKE PROGRESS IN WASHINGTON

News and private despatches from Washington on Saturday and today tell of speedy progress made by two Honolulu utilities bills in Congress.

On Saturday the senate passed the Honolulu Gas Company and Hawaiian Electric Company bills, extending the scope of the franchise outside the district of Honolulu. The gas company bill also passed the house this morning, according to a private despatch, but nothing was heard from the electric company measure. This is expected, however, to pass at any time now.

The senate also passed the franchise bill for electric light and power in the districts of Koloa and Lihue, Kauai.

Thankful For Relief Remedy Brought Her

Gays Fruitola and Traxo Possess All the Merit That is Claimed for It.

After completing the necessary treatment, Mrs. S. S. Cole, Lanesville, Tex., was so well pleased with the results that she wrote the Pinus laboratories as follows: "Fruitola and Traxo are all you claim. It removed a quantity of gallstones and I feel sure it saved my life. I am well now and thankful to you for the great good your medicine has done me."

Fruitola is a powerful lubricant for the intestinal organs and one dose is usually sufficient to clearly demonstrate its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering and expels the accumulated waste to the great relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day in order to rebuild and restore the system that has become weakened and run down from constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

Mrs. S. S. Cole
PHOTO BY BROWN

Fruitola and Traxo are prepared in the Pinus laboratories at Monticelli, Ill., and arrangements have been made to supply them through representative druggists. In Honolulu they can be obtained at Benson, Smith & Co., Ltd.—Adv.

JUDGE WHITNEY TO BE SPEAKER AT GRADUATION

College of Hawaii Holding Final Exercises Today; Banquet at Beach Last Saturday

Judge William L. Whitney will deliver the graduating address this afternoon at 4 o'clock at the College of Hawaii, to which all friends of the institutions are invited.

Wallace R. Farrington, chairman of the board of regents, will confer the degrees upon the graduates. Richard M. S. Goo will receive the degree of Bachelor of Science in engineering, and Harold Earl Starratt, Bachelor of Science in agriculture.

Governor Pinkham and John A. Widestoe, president-elect of the University of Utah, will be among the guests of honor. Rev. Father Valentin will deliver the invocation at the beginning of the ceremonies. Following the presentation of diplomas a reception is to be held by President Arthur L. Dean and the regents and faculty.

Nearly 100 students, faculty members, regents and their friends attended the fifth annual banquet of the College of Hawaii held at the Outrigger Club Saturday evening. The toastmaster was Harold Starratt, president of the class of 1916, and wit by the students, mingled with the serious advice of the older persons present, flowed across the festive board.

Brief addresses were delivered by President A. L. Dean, Jack London and Regent Wallace R. Farrington, the latter taking as his subject the Ad Club classic "Being Glad." Arthur Rosenberg, the astronomer, recited a laughable parody on Gray's "Elegy" which had to do with the events in college life.

Other events on the program were a Hawaiian melody by Eaton Ma-goon, a clog dance by Stafford Austin and a recital by J. M. Kuhns, 13, of things at the college as they used to be when he was a senior. William Barnhart, 14, presented each football player with the "H" won by him on the gridiron during the last year, and Richard M. Goo, representing this year's graduating class, presented Leslie Hicks, 17, with the traditional "Lamp of Learning."

COL. STURGIS AMONG THOSE ON SHERIDAN

(Special Star-Bulletin Correspondence) SCHOFIELD BARRACKS, June 5.—Among those leaving on the transport last night was Col. S. D. Sturgis, who has been in command of the 1st Field Artillery for the past three years. Col. Lucian G. Berry had been ordered to Honolulu to take command of this regiment, but owing to the fact that he is on duty with the troops in Mexico, the date of his arrival has been indefinitely postponed, so that the command of the regiment has devolved upon Lieut.-col. John E. McMahon, who for three years has been the senior lieutenant-colonel of field artillery.

As Lieut.-col. McMahon will be one of the first to receive the eagle on the expected army increase, it is probable that he will remain here in command and that Col. Berry's orders will be revoked.

Col. Sturgis carries with him the best wishes of his many friends both at Schofield and in Honolulu. He is turning over a regiment of whose efficiency he can well be proud. He has not yet received his new assignment.

PVT. FOLEY IS MISSING

George Foley, a private from Battery C, 1st Field Artillery, Schofield Barracks, is listed in army files as a deserter, having left the post on May 11, this year. He had been in the army since December 8, 1913, at which time he was enlisted at Jefferson Barracks, Missouri. Foley's description is as follows: Age, 22 years and three months; occupation, laborer; eyes, blue; hair, light brown; complexion, ruddy; weight, 150 pounds; height, 5 feet and 6 1/2 inches.

Joseph Danduno was sentenced in the superior court at New Haven to from four to eight years in state prison on his plea of guilty to "white slavery" charges.

The dust raised by automobiles has been blamed by medical authorities for an increase in pulmonary diseases in the Philippines.

LOOKING FOR WORK

Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it isn't the work half so much as their own lack of physical strength that makes it hard.

Rich blood, strong lungs and healthful digestion make work pleasurable in business, in school or even housework, and if those who are easily tired—who are not sick, but weak and nervous—would just take Scott's Emulsion for one month and let its pure concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength—you would find work easy and would look for more. Insist on Scott's. Scott & Bowne, Bloomfield, N. J. 15-35

LOCAL AND GENERAL

Construction work on the new roof for the Model building, Fort street, in which is located the United States court, will begin about July 1.

Property of deceased seamen, including ships' bags, gripsacks, valises and trunks, will shortly be sold at public auction by the clerk of the federal court.

A meeting will be held at 10 o'clock next Saturday morning by the civic convention committee appointed to draft a charter and bylaws for the organization. The completed draft will be presented at the annual meeting of the convention in Hilo next September.

The members of the Woman's Board of Missions of the Pacific Islands will hold their annual meeting in the Bible school rooms of Central Union church at 10 o'clock tomorrow morning. Officers will be elected and the work of the last year reported on. A luncheon will be served in the parish house at 12:15 o'clock.

FALL OF THIRTY FEET DOES NOT KILL STUDENT

Willie Silva, a 16-year-old lad at Mills school, Manoa, fell out of a third story window yesterday afternoon and received wounds about the face and side which necessitated his being taken to the Queen's hospital in the ambulance. Though he suffered considerably through the night from his bruises, it is not thought that he will be permanently injured.

Willie had been cleaning a pair of white shoes, and, contrary to one of the rules of the school, had crawled out on the roof to place them on the eaves to dry. In some manner his foot slipped as he turned from the window and he fell the whole distance of 30 feet or so to the ground. He clutched at the eaves as he passed and this turned his body in against the stone wall which he struck with his side. Two other boys saw the accident.

The lad was picked up unconscious and bleeding profusely from cuts on his mouth and nose. There was also a severe bruise on his side, and two front teeth were knocked out. Dr. E. D. Kilbourne, summoned by telephone, made a hurry-up run in his automobile and after applying first aid remedies had the boy taken to the hospital, where his injuries were more carefully treated.

SMALLER SALES THAN IN RECENT PAST REPORTED

Mineral Products was the one striking feature of the stock market in the early trading and up to the time of the session. Bidders were offering \$12.12-2 and orders were being placed with various brokers to bid as high as \$1.15.

Sugars were generally inactive and the usual Monday morning tendency of "wait till the session" was in evidence. It was the duller day, except in unlisted securities, but the exchange has known in several weeks past. Total sales between boards were reported as only 120 shares and at the session 340, making in all only 510 shares.

McBryde sold at \$14.125 but at the session rose again to \$14.25; Olua was \$23.25; Waiulua 37 and Pioneer \$4.50. San Carlos sold at \$16. Dividends payable today were Hawaiian Commercial and Sugar, \$1.25; Honoum, \$1.50, Hutchinson 50 cents and Pauhanu 50 cents.

BLIND PIGS CLOSE WHEN ONE ARREST IS AFFECTED

Holo, a Hawaiian, was fined \$100 in police court today for selling liquor without a license. Holo was arrested Saturday night back of Punchbowl, near Tantalus, and his "swipes" confiscated by liquor inspector W. P. Fennell and detectives.

Holo was up before the court about six months ago on a similar charge and given a suspended sentence. Fennell says several "blind pigs" near Punchbowl hurriedly and automatically quit business shortly after the news of Holo's arrest had spread.

A German scientist has demonstrated that radium has a marked effect on woody plants, even forcing them to bud in dormant seasons.

YOUNG WOMEN HEAR OF COAST DEFENSE WORK

Members of the Outing Club of the Y. W. C. A. were entertained at Fort Ruger on Saturday afternoon when Capt. F. W. Plisterer talked to 22 young ladies on the coast defense work. The club was shown the disappearing guns, and magazines, and Capt. Plisterer answered a number of questions regarding the problems that come up in this branch of the service.

After spending two hours at Fort Ruger the young ladies left for the lighthouse, where A. E. Arledge lectured on the general policy of the lighthouse work in the United States. Young ladies were given the privileges of the lighthouse during their stay there.
